Objective

Seeking a career opportunity as a Junior Software Developer that allows me to apply and enhance my analytical and programming skills. I believe i'm great fit for this role. I'm a self-motivated person and given 100% to any task that is given to me. That's why I have been Abel to do good in my academics and surely I will do the same for any project and task that is given to me. I also work well as individual contributor and a team member that is why I have multiple solo and team project. Overall, i believe I can contribute a lot to the organisation with my skill and will
